

PRODUCTSPEZIFIKATION

Product name: Xylene (e)

Chemical and physical test:

Specified characteristic	Specification	Test method
Appearance	clear, colourless	visuell
Refractive index at 20°C *	1.493-1.499	DIN 51 423
Density at 15°C [g/ccm]	0.865-0.875	DIN 51 757
Density at 20°C [g/ccm]	0.861-0.871	DIN 51 757
Colour number [Hazen]	max. 20	DIN ISO 6271
Boiling point [°C]	137-143	DIN 51 751
C8-aromatics content [%] **	min. 97	GC
C9-aromatics content [%]	max. 1.2	GC
Benzene content [%]	max. 0.01	GC
Toluene content [%]	max. 0.5	GC
Non-aromatics content [%]	max. 2.7	GC

*) No specify - typical values. **) Isomers and Ethyl benzene

Above mentioned information do not relieve the customer from controlling the product on delivery.
A legally binding warranty for the suitability for a specific application can not be derived.
